Purpose:
This conference is designed to increase teacher effectiveness by preparing educators and administrators for successful integration of effective strategies, instructional technology and best practices that promote student achievement and post-secondary readiness. A special feature will be panel sessions in addition to a variety of conference sessions that will showcase outcomes-based practices and strategies designed to increase teacher effectiveness, create engaging learning environments, and promote advanced academic achievement.

Sessions are organized by five strands: High-Yield Instructional Strategies for Elementary Teachers, High-Yield Instructional Strategies for Secondary Teachers, Leadership for Learning, College and Career Readiness, and Smart Teaching Tools

Who should attend?
Teachers and campus/district administrators.
