**Note:** Numbers under the collection heading signify the load order of the interchange for the submission. Superscripted Numbers at the end of the interchange name represent the interchange # that it has referential integrity with.

\* Staff data comes from 2 systems: SIS and HR system. If you decide to not combine interchanges then you will have 2 InterchangeStaffAssociationExtension files to load in the Fall and Extended-Year collections. If so, make sure that the HR staff file is named with an earlier datetimestamp. The SIS Staff File has referential integrity with the HR Staff File.
