Data Validation Monitoring Leavers (DVM - L)

Purpose:
The Texas Education Agency monitors the accuracy of data in the Public Education Information Management System (PEIMS) and the accountability system. Data validation monitors the accuracy of data submitted and utilized in various state and federal accountability systems. The annual data validation analyses are conducted to ensure data integrity to include student leaver, student discipline and student assessment records.

This session will provide districts and charter districts with the general documentation and requirements for the 2015-2016 intervention staging information for data validation monitoring of leaver records (DVM-L). The focus will be on data quality to inform the district of needs in training, an improved quality control of local data collection, audits and submissions. The following will be discussed:

- 2015 Indicators
- Guidelines and Procedures
- Documentation Requirements
- Data Quality
- Reason Codes
- Monitoring Interventions and Investigations

Workshop # 52166
