ATTORNEYS AT LAW

Walsh, Anderson, Gallegos, Green and Treviño, P.C. 2015 Advanced Human Resources Symposium

In a perfect world, decisions regarding personnel would be simple and straightforward. However, for superintendents, human resources administrators and campus administrators, personnel decisions are far from easy and can be fraught with problems. The reality is that in the world of human resources employment decisions are not made in a vacuum. Rather, depending on the nature of the decision to be made, administrators may be called upon to investigate, make findings, draw conclusions and ultimately weigh and assess multiple factors when making employment decisions.

In the 2015 Advanced Human Resources Symposium, the firm's school law attorneys will walk administrators through the legal and practical considerations of various personnel topics. The program is built around "real world scenarios" which encourage interaction and dialogue with attendees.

Attendees should come ready for a dynamic and interactive human resources training. This symposium is one you don't want to miss!
