\$100 MEGAbyte

The STEM Center of South Texas invites you to the *3rd Annual South Texas STEM Summit* hosted by Region One ESC. All types of STEM programs will benefit from learning experiences under the theme *"Enter the STEM MATRIX."* The Summit will feature two days carefully designed to serve multiple needs.

We welcome Dr. Victor Sampson as the featured keynote speaker. Dr. Sampson serves as the director of the Center for STEM Education with the University of Texas - Austin. Dr. Sampson is passionate about promoting excellence in STEM education through a combination of high impact research and educational outreach initiatives. His research has been published in journals such as *Science Education*, *The Journal of Research in Science Teaching* and *The American Educational Research Journal*.

NOW ACCEPTING PROPOSALS THRU JANUARY 17, 2018:
<http://bit.do/STEMsummit18Proposal>

Day 1 - STEM SEMINARS *In-depth, 2-hour, focused instructional modeling using a PBL approach with embedded resources covering a full range of STEM topics.*
