buoyancy	solution	evaporation	melting point	radiation
solubility	condensation	refraction	translucent	opaque

This is a call list, which lists all the words on your cards in scrambled order.
Just call them out one at a time, starting at the top. You can also give a clue rather than the word itself.

opaque
melting point
magnetism
temperature
transparent
radiation
displacement
boiling point
condensation
volume
buoyancy
mass
conduction
solubility
translucent
solid
evaporation
liquid
gas
reflection
density
convection
refraction
mixture
solution
