

7th Annual Effective Border Schools Conference

Cultivating and Reshaping Minds: Celebrando y elevando nuestras identidades multilingües

Region One Education Service Center and the Center For Excellence in Education of Diverse Students

Look no further for effective practices for diverse learners!

Our students and their families come from a variety of linguistic and cultural backgrounds that enrich our border communities every single day.

Each one of them comes with a different story, a different perspective, a different world view. Educators in effective border schools value this diversity as an opportunity to connect with others, enhancing our way of life and helping us find a common voice... especially in these challenging times!

Learn how to empower your diverse students, so their stories, OUR stories, come together as one in a translanguage world!
