2022 STEM Summit

Keynote: Dr. Martha A Cantu

Currently serves as Director for the University of Texas Rio Grande Valley GEAR UP project. She most recently served as the Executive Director of College and Career Readiness for the Texas Valley Communities Foundation.

The UTPA GEAR UP Project was the second largest grant in the nation and under Cantu's leadership was recognized nationally as a model of best practices by the U.S. Secretary of Education. Her professional experience at UTPA began over twelve years ago as an adjunct faculty member teaching graduate classes in the College of Education.

- Panel Discussion
The Metaverse moderated by Alfonso Mendoza founder and host of "My EdTech Life"

What is the metaverse?

It's a combination of multiple elements of technology, including virtual reality, augmented reality and video where users "live" within a digital universe. Supporters of the metaverse envision its users working, playing and staying connected with friends through everything from concerts and conferences to virtual trips around to the world.

2022 Student-by-Student Technology & Leadership Conference

SbyS is a unique experience where sessions focusing on the use of technology in education and STEM will be presented by students for their fellow students. This will empower student presenters to be leaders of their own future in the areas of technology, STEM and innovation, as well as provide a platform for students to showcase technology and STEM best practices.
