 - **API Instructions:**
 - The instructions were updated with the URL to utilize the 2020 US Census data.

CENSUS BLOCK GROUP TOOL

- TEAL Access:
 - The TEAL privilege '**Census Block Group Tool**' will allow users to download the utility.
 - The following TEAL roles will include the '**Census Block Group Tool**' privilege:
 - **PEIMS Data Completer**
 - **ODS Data Loader**
 - **ODS Campus Data Loader**

- Help Documentation:
 - Users can now download the help documentation for the TSDS Census Block Group tool from the **Utilities tab** in the TSDS Portal.

CHILD FIND UPDATES

- The Child Find submission closed on Thursday, July 28, 2022.
- Final Completed Count: 1175

CHILD FIND UPDATES

- The following two known issues will be addressed for the 2022-2023 submission:
 1. The SPPI-11 Eligibility Determination compliance is not calculating correctly for students meeting all of the following criteria:
 - **PARENTAL-CONSENT-DATE (E1714)** came in the prior school year (holdover student) with less than 35 or more than 44 instructional days remaining.
 - **INITIAL-EVALUATION-DATE (E1715)** and **SPED-ELIGIBILITY-DETERMINATION-DATE (E1716)** came on or after July 1st and before the new school year began.
 - Eligibility determination was not completed within 30 calendar days of the initial evaluation.

CHILD FIND UPDATES

Example:

- PARENTAL-CONSENT-DATE = 04/26/21
- Last instructional day in the 2020-2021 school year = 05/28/21
- INITIAL-EVALUATION-DATE = 07/01/21
- SPED-ELIGIBILITY-DETERMINATION-DATE = 08/16/21
- First instructional day in the 2021-2022 school year = 08/23/21

The eligibility determination should be calculated as compliant because it was completed before the first instructional day of the new school year.

CHILD FIND UPDATES

2. The SPPI-11 Initial Evaluation and Eligibility Determination compliance is not calculating correctly for students meeting all of the following criteria:
 - **PARENTAL-CONSENT-DATE (E1714)** came in the prior school year (holdover student).
 - **CAMPUS-ID-OF-EVALUATION (E1710)** was reported for a campus that did not have any calendar data reported for it in the prior year PEIMS Summer submission.

- Example:
 - Students reported with a **CAMPUS-ID-OF-EVALUATION** for a brand-new campus that did not have any students in the prior school year.

Any questions
from the
Summer ESC
TSDS Training?

ESC/Vendor Training Q&A

Will the ECDS pre-K assessment vendors be sending their assessment data to TEA on behalf of the LEAs for the 2022-2023 school year?

The prekindergarten process will remain the same for 2022-2023 as it was for 2021-2022. LEAs are expected to obtain their assessment results directly from their ECDS vendor and are responsible for loading their assessment data into the ODS. Prekindergarten assessment results will NOT be provided directly to TEA.

ESC/Vendor Training Q&A

Will the existing Census Block Group Calculator spreadsheet be replaced by this new Census Block Group Tool application?

LEAs will use the downloadable TSDS Census Block Calculator Tool to obtain their Student Census Block Group numbers. The Census Block Group Calculator spreadsheet that is currently available on the TEA Census Block Group Tools website was removed on July 29th.

ESC/Vendor Training Q&A

Should all Local Education Agencies (LEAs) report Career and Technical Education (CTE) course completions during the PEIMS Extended Year submission or only if the LEA receives CTE grant funding?

For the PEIMS Extended Year submission, all LEAs should report high school CTE courses that students completed during the summer (between school years).
