

Title I, Part A Parent and Family Engagement Statewide Initiative

INTENDED AUDIENCE: PFE Coordinators, PFE Liaisons, Counselors, Teachers, Federal Programs Staff, School Administrators and ESC Staff

Building Capacity - Building Relationships

Are you struggling to get parents involved? Do you want to build a culture that values families? Then this workshop is for you! Building the capacity of staff and parents is a requirement, but for sustained success it needs to be a mindset. This session will present the building capacity requirements in the context of school culture and building relationships. Meeting the requirements of the statute is satisfactory, but doing so while valuing the contributions of parents and building partnerships with families and the community is exemplary. The session will address the question about how to make connections with parents and families. Attendees will also learn about the newly updated Dual-Capacity Framework. A model school will also share their story and practical strategies in the afternoon. A variety of materials will be provided.

HOST LOCATIONS & DATES

All Sessions 9:00 a.m. - 4:00 p.m.

➔ **Afternoon session will showcase a model school.** ➔
