| ACT, Inc. | 12.73 | Texas Tech University | 4 | 4 | 4 | 4 | 4 | We have used ScootPad for about 8-9 years in our district and it has been the best online software for what we want and how we use it. Just in the last few years, now that we are truly implementing it well, our NWEA MAPs scores have shown huge gains, a big part of that is our use of ScootPad. We use it as an intervention identifier. It is linked to our state standards and we are able to use it to put kids on learning paths that truly find where they are deficient and where they excel. Our entire staff that works with kids uses it from teachers, to specials teachers, SPED teachers, and our paraprofessionals. I could go on and on. Get this, and get it now, you will not regret it. Also, please feel free to reach out to me for any clarifying information, or how we use it more specifically. Have a great day! | 2021/01/14 3:53:45 PM CST |

| UnboundEd Learning, Inc. | 31.34 | Tulsa Schools | 4 | 3 | 4 | 4 | 4 | <p>The training sessions were exceptionally high-quality, allowing teams of Tulsa staff to reflect on grade-level instruction as an equity imperative, to deep dive into standards and curricular materials, and to challenge our own biases and systemic equity detours that hold students back from accessing the content to prepare them for college and careers. The training experience during the Institutes and Summits gave our teams shared language, resources and tools, which we continue to apply as we implement our Tulsa Way for Teaching and Learning. Communication is always timely, and the professional learning sessions deliver as intended. UnboundEd has been exceptionally responsive and provides high-quality services and programming based on our district needs.
