

6TH ANNUAL

Workshop #159665

Effective Educators Leading Success Conference

E3 for All: Transforming Education through Effective, Engaging, and Equitable Learning

The 6th Annual Effective Educators Leading Success Conference boasts a full day of sessions that highlight best practices for transforming education through effective, engaging, and equitable learning for all students. The conference keynote is sure to inspire leaders, empower teachers, and share insights into reimagined teaching and learning. Conference participants will have opportunities to attend a vast array of sessions in seven targeted strands and learn about digital resources from conference exhibitors. At the heart of this conference is the critical question “What impact does my teaching have on student learning in multiple learning environments: face to face, synchronous, and asynchronous?” Participants will leave the conference with a renewed sense of purpose, commitment to educational excellence, and new skills for effective, engaging and equitable learning.

**Keynote Speaker
Announced in
September!**
**Sure to Inspire, Empower,
and Share Insights for
Reimagined Teaching and
Learning**
