

Planning for Mastery

Session Overview

Effective teachers plan with the end in mind. They examine the big picture and clearly identify what students need to know and be able to do and intentionally focus on outcomes that demonstrate proficiency. These sessions will provide an opportunity for teachers to collaboratively plan the first six weeks of instruction using the TEKS Resource System. Participants will leave with a first six weeks planning document aligned to local resources and share best practices for instructional delivery.

Key Areas Addressed

- ◆ 2nd & 3rd Six-weeks backward planning
- ◆ Addressing critical learning standards
- ◆ Understanding rigor & content specificity
- ◆ Multiple representations of the TEKS
- ◆ T-TESS planning dimension 1.1

Science

Location

All sessions will be virtual via Zoom. Link will be shared upon registration.

Time

2:30—4:30 PM

Fee

Waived-Open to TEKS Resource System Option 2 Districts
