

## **Web Demo: FAFSA on the Web and FAA Access to CPS Online**

The CPS Web Applications Demo System offers demonstration versions of FAFSA on the Web (FOTW) and FAA Access to CPS Online. The demo site contains all of the features of the production versions of the websites.

Financial aid staff can learn about FOTW and FAA Access to CPS Online, including the Return of Title IV Funds on the Web, and they can also show students and parents how to use FAFSA on the Web.

Test student IDs and PINs are available for preloaded renewal application and correction records. These test records can be accessed in both the FOTW and FAA Access demos. FAA IDs and PINs are available for FAA Access. The data you enter is saved for the day you enter it and is cleared from the database each evening.

The CPS Web Applications Demo site is located at <https://fafsademotest.ed.gov/>.
